

Signed Your Own Fate

Budgie

You thought that I was your toy
You thought that I'd bring you joy
You know it's not easy
It isn't a dream

I said that nothing's for free
I didn't want you to be your own prisoner
All in a day's work for me
It isn't a game

You tried everyone
But you could find no help
And you could not relate
You signed your own fate

But now it's faded away
And there's no reason to stay except to help you
I didn't think you would fail
You're tumbling down, down, down, down, down

You took my life in your hands
I hoped that you could withstand your own temptation
For those broken too
You never let go

You tried everyone
But you could find no help
And you could not relate
You signed your own fate
You signed your own fate
You signed your own fate

You signed your own fate
You signed your own fate
You signed your own fate
You signed your own fate
