

Take My Hand for a While

Buffy Sainte-Marie

Take my hand for a while
Explain it to me once again
Just for the sake of my broken heart
Look into my eyes and maybe I will understand
How love I counted on was never there
You see, I thought that you might love me
So you caught me it seems off balance with a heart
So full of love and pretty dreams that two should share
And so I know but please before you go
Take my hand for a while
Explain it to me once again
Just for the sake of my broken heart
