

Earth Shaker

Building 429

I see your doubt trying to silence the dream
I see your fear runnin wild in the streets
And everybody's getting lost in the struggle now
Where are the ones who believe?

Somebody grab a match and light this fuse, ohh
Gonna set it off until we see you explode
Let it be the jump start to the lost and weary heart
Then he said lets go

I wanna be a sky scraper
Reachin' for You
Reachin' for You
I wanna be a earth shaker, be the game changer
That's living for You
Na na na na...

This is the moment the here and the now
We got a choice to step up or step down
What are you gonna do when its staring back at you?
This is the time to step out
Gonna set it off until we see you explode
Then he said lets go

I wanna be a sky scraper
Reachin' for You
Reachin' for You
I wanna be a earth shaker, be the game changer
That's living for you
Na na na na...

When you're alone
When you're life
Will be the change, will be the light
Lift your name, lift above
Will be the change, will be the light
Ohhh ohhh
(will be the change, will be the light)
Ohhh ohhh

I wanna be a sky scraper
Reachin' for You
Reachin' for You
I wanna be a earth shaker, be the game changer
That's living for you

I wanna be a sky scraper
Reachin' for You
Reachin' for You
I wanna be a earth shaker, be the game changer
That's living for you
Na na na na...

I wanna be a Earth Shaker
