

## Car

### Built to Spill

You get the car, I'll get the night off  
You'll get the chance to take the world apart  
And figure out how it works  
Don't let me know what you find out

I need a car, you need a guide, who needs a map?  
If I don't die or worse, I'm gonna need a nap  
At best I'll be asleep when you get back

I wanna see it when you find out what comets, stars, and moons  
are all about  
I wanna see their faces turn to backs of heads and slowly get s  
maller  
I wanna see it now  
I wanna see it now

I want specifics on the general idea  
I wanna think what I should know  
Want you to do me what to show

I wanna see movies of my dreams  
I wanna see movies of my dreams  
I wanna see movies of my dreams  
I wanna see movies of my dreams

I wanna see it when you get stoned on a cloudy breezy desert af  
ternoon  
I wanna see it untame itself and break its owner  
I wanna see it now  
I wanna see it now
