

Wiggly days, wiggly nights
When it's dark bring in light so you can see
What a sound, straight through my spine bounced off of me
Makes me round, 3-D sound, push it down, move it around

See, I'm fine

Ain't it strange that I can dream?
You can say it's night or day
Snow or rain it's all the same
When there's nothing I have ever seen
In here, in here

Ain't it strange that I can dream?
You can say it's night or day
Snow or rain it's all the same
Ain't it strange that I have brain activity?
In here, in here

Who brought those cameras in?
Who gave who the right?
Lennart Nilsson, shut off those lights
Inside a sea turned from frog to freak to tiny red and meek

Ain't it strange that I can dream?
You can say it's night or day
Snow or rain it's all the same
Strange that I'm a human being

Ain't it strange that I can dream?
You can say it's night or day
Snow or rain it's all the same

Living in the womb
Running out of room
Have to come out soon
Have to meet the sun and moon and
