Come through me
You arrive and I'm on fire
Subdue me
To explode that you inspired

So groovily Second episode of all smiles Let's make a movie In the name of all great liars

Improvising, Kaufman style

They are all reasons to me They are all reasons to be They are all reasons to see They are all reasons to me

How the hell do you do this? Change the colors, shapes, and size I'm clueless Not one thing I recognize, so foolish

Every now's a big surprise
Help me to get through this
Stay with me until I die
There's nothing else i wanna try

They are all reasons to me They are all reasons to be They are all reasons to see They are all reasons to me

They are all reasons to me They are all reasons to be They are all reasons to see They are all reasons to me
