Came into the darkness from out of the blue I don't know much but I know what to do Froze in my mind, I believed it so long Alright, I'll admit I was wrong

Stay out of my nightmares, stay out of my dreams You're not even welcome in my memories
When things are alright and I want what I've got It's only momentarily thought

Fade out, fade out Fade out, fade out Fade out, fade out Fade out, fade out

If no one thinks of no one Then no one believes in no one And no one fucks with no one When no one's afraid of no one

We've all seen enough, now it's time to decide The meekness of love or the power of pride It doesn't matter if you're good or smart Goddamn it, things fall apart

Let's go for a walk, yeah, let's go for a drive Don't know how to say thanks for being alive Let's go for a lifetime, let's go for a fling Don't know how to say anything
