

One To One

Buju Banton

What are you doing tonight?
Are you alone?
Thoughts of you come over my mind
I miss you to the bone
I'd like to come on over
Be in exile and discover a Girrrll
We need to have a one to one

Me an you, we really do should have a one to one
I know that, I say we've got so much things to talk about
We must get together to sort it out
If in your mind you have some doubts
Come, and let me show you what I'm about

We need to have a one to one
Oh girl, no denying we should have a one to one

And I want you know that
I would not mislead you like those other guys do
I wouldn't use you count on me
My love will always be true
