Small axe fall big tree Though I'm just a baby Safe in your arms That's where I wanna be Small axe fall big tree

Small axe fall big tree Though I'm just a baby Safe in your arms That's where I wanna be Small axe fall big tree

Been on your love line for so long Won't you be mine age is no crime Been loving you every minute every hour All I ever need

Small axe fall big tree Though I'm just a baby Safe in your arms That's where I wanna be Small axe fall big tree

And I know you won't
Treat I like others would
Warm embrace truly I feel good
So much to learn this heart inside I burn
And I'm still be right here waiting my turn
