

4 Words (To Choke Upon)

Bullet For My Valentine

Betrayed one more time
But somewhere down that line
You're gonna get what's coming to you

(look at me now) look at me nooow

pull the knife from my back
to leave the one, inside, intact ?
i can't wait to return the favour

(look at me now) look at me noow

too many times i've seen it
rip a hole into our friendship
this is how it's been, how it always will be..
you think you're above me (YOU THINK YOU'RE ABOVE ME)
but now i need to end this
four words to choke upon..

Look at me NOW
