

## Curses

### Bullet For My Valentine

We've waited far too long to,  
watch it all crash and fall through  
So when you feel like shit youve gotta  
keep on pushing  
If you saw the world through my eyes  
then you wouldn't feel so highrise  
It's time to take a chance,  
you've gotta sit.. back.. and.. hold tight

Theres Forces working in our heads  
But we don't understand them  
I need a map to find my way out all the time  
There's Curses Lurking in our heads  
but we don't want to find them  
We need to come back down and face what we've become

WE'VE BECOME

The more I think  
the more I wish I  
pushed stop, then hit rewind  
What i would give to have or take back then,  
when no-one really cares  
I remember when we all used to  
Kick back, and take days off school

So many times i'd smile  
many times ive cried,  
but never did we try  
never did we TRY.....

Theres Forces working in our heads  
But we don't understand them  
I need a map to find my way out all the time  
There's Curses Lurking in our heads  
but we don't want to find them  
We need to come back down and face what we've become

Nooooooo!

Its haunting me..... Im so alone  
I'm just trying to find my way back home  
I'm so alone (ALONE!!!)

Theres Forces working in our heads  
But we don't understand them  
I need a map to find my way out all the time  
There's Curses Lurking in our heads  
but we don't want to find them  
We need to come back down and face what we've BECOME.....
