

Eye of the Storm

Bullet For My Valentine

Can you hear the thunder?
Can you feel the rain it pours?
Nail down all your windows,
Then barricade the doors!

Mother Nature's Fury!
Takes you by the hand!
Showing all but mercy!
Wreaking death upon the land!

GO!

Caught in the eye of the storm!
Did the heavens just open and fall?
We are!
Caught in the eye of the storm!
All that's left are just bodies to mourn!

Can you see the lightning?
Can you feel the wind it soars?
Pack up your belongings!
Let chaos take control!

(Takes Control!)

Mother Nature's Fury!
Takes you by the hand!
Rip this world to pieces!
Bid farewell to all you know!

GO!

Yeah!

Caught in the eye of the storm!

Can you hear the thunder?
Can you feel the rain it pours?
Nail down all your windows,
Then barricade the doors!

Mother Nature's Fury!
Takes you by the hand!
Showing all but mercy!
Wreaking death upon the land!

GO!

To Mourn!
