Take It Out on Me

Bullet For My Valentine

Oh yeah

I'm always thinking of you And all the things that you do Self-centered satisfaction No more will I run from you

Dysfunction family values I'll die but I will not fear Stop talking words of wisdom You fool I'm standing right here

The world is on your shoulders The weight it's crushing me Now we're all getting older Take it out, take it out, take it out

Take it out on me, take it out on me Take it out on me, take it out on me Vent your frustration on me

I feel so much destruction In everything that you do Anger is creeping in me Watch I don't explode on you

My rage it comes so quickly One spark and I will ignite Self-harming mutilation cuts deep But the pain feels so right

The world is on your shoulders The weight it's crushing me Now we're all getting older Take it out, take it out, take it out, take it out

Take it out on me, take it out on me Take it out on me, take it out on me Vent your frustration on me

This fire burns inside This fire burns inside There's no where left to hide

This fire burns inside This fire burns inside This rage can't be denied

The world is on your shoulders The weight it's crushing me Now we're all getting older Take it out, take it out, take it out, take it out

Take it out on me, take it out on me Take it out on me, take it out on me Vent your frustration on me Take it out
