

## The Very Last Time

Bullet For My Valentine

Your eyes don't lie  
A pair of daggers cutting through my mind  
Your stare it rips a hole into my life  
Am I supposed to leave this all behind?  
It's on my skin  
Your scent is poison when I breathe you in  
It's there with every single breath I take  
If this is it then don't resuscitate

I've gone and put myself through this for the very last time  
I'm not gonna punish myself when I know that the fault is not m  
ine  
It's on my skin  
Your scent is poison when I breathe you in  
I've gone and put myself through this for the very last time (f  
or the very last time)

Don't you speak  
You think I'm hurting but I'm not that weak  
I guarantee I won't be losing sleep  
'Cause you're the one that made this end complete

I've gone and put myself through this for the very last time  
I'm not gonna punish myself when I know that the fault is not m  
ine  
Don't you speak  
You think I'm hurting but I'm not that weak  
I've gone and put myself through this for the very last time (f  
or the very last time)

Breathing  
I'm still breathing  
I'm still breathing  
I'm still breathing

I've gone and put myself through this for the very last time  
I'm not gonna punish myself when I know that the fault is not m  
ine  
Don't you speak  
You think I'm hurting but I'm not that weak  
I've gone and put myself through this for the very last time  
I've gone and put myself through this for the very last time
