

Bite The Bullet

Bullet

She was a girl with opinions about everything
Who found out the hard way
That I am her king
Every night without a fight she bite the bullet

She Bite
She Bite the bullet
She Bite
She Bite the bullet

I know that I'm not a beauty but I play rock n' roll
Well that's all it takes folks
For girls to lose control
Every night without a fight she bite the bullet

She Bite
She Bite the bullet
She Bite
She Bite the bullet

She used to tease me every Friday night
But now she just please me
And it feels so goddamned right
Every night without a fight she bite the bullet

She Bite
She Bite the bullet
She Bite

Are you ready to bite?
The bullet
