

Leather love

Bullet

I know what's your desire
Ohh, when it's midnight
I bring you down for pleasure
I bring you down for pain

Don't you know, tonight the night has come
You will see, I'll teach you right from wrong

I bring you leather love
I'm hungry for you
Leather love
Are you ready for me, are you ready to feel the heat
Leather love
I'm hungry for you
Leather love
I'll teach you how to do

And when you're down and dirty
Not your clothes, your mind
So get down on your knees
And do what I please

Don't you know, tonight the night has come
You will see, I'll teach you right from wrong

I bring you leather love
I'm hungry for you
Leather love
Are you ready for me, are you ready to feel the heat
Leather love
I'm hungry for you
Leather love
I'll teach you how to do

I bring you leather love
I'm hungry for you
Leather love
Are you ready for me, are you ready to feel the heat
Leather love
I'm hungry for you
Leather love
Are you ready to get down on your knees,
And do what I please
Leather love
I'm hungry for you
Leather love
I'll teach you how to do
