

Nailed to the ground

Bullet

You know the feeling when your heartbeat start to rush
It's here to take your soul
5000 miles away no matter where I roam
Two tire fire bring me home

I reign the streets as I leave my past behind
On my own that suits me fine
The earth is trembling as I nail it to the ground
When lightning strikes I'm around

I seek the truth, The fastest man in town
The one who's next in line
I won't escape a challenge if you dare to challenge me
That's the only way to set my soul free

I reign the streets as I leave my past behind
On my own that suits me fine
The earth is trembling as I nail it to the ground
When lightning strikes I'm around

I'm nailed to the ground
I'm nailed

I reign the streets as I leave my past behind
On my own that suits me fine
The earth is trembling as I nail it to the ground
When lightning strikes I'm around
