

Rock Steady

Bullet

C'mon with me babe, take the midnight train
I got some tickets to show
Just run away, break out of your cage
You got the guts to rock n' roll
Let's take the chance, let's be a fool
I know you're tired of it all
I say just come along and forget about your rules
Don't worry about your mama, she will be there too

Set it free, let it out
I wanna hear you shout

Get ready
Rock steady
I wanna hear you shout
Get ready
Rock steady
We're raging out tonight

We bring it on if you are ready or not
We bring it on for you
There is a fire, feel it getting hot
I see it burning in us all
We're rolling down, we're moving out
Nothing will stand in our way
You know we're getting strong
Get ready to shout
Get rid of your chains, that's what it's all about

Set it free, let it out
I wanna hear you shout

Get ready
Rock steady
I wanna hear you shout
Get ready
Rock steady
We're raging out tonight

Get ready
We're running out of control
Cause we know
It's gonna save our soul

Sp set it free, let it out
I wanna hear you shout

Get ready
Rock steady
I wanna hear you shout
Get ready
Rock steady
We're raging out tonight

Get ready
Rock steady
I wanna hear you shout

Get ready
Rock steady
We're raging out tonight
