

Raygun

Bumblefoot

Gonna shoot ya - with my raygun
Comin' at ya - nowhere to run
She treads in blindness - shy silhouette hides, and
Shadows run from ya
I'm so loaded - and I, I want ya
Gonna shoot ya - yeah
I think we're gonna blow - look out...

Gonna shoot ya - with my raygun
Comin' at ya - nowhere to run - here I come
She waits in silence - she invites me
On full blast now - can't stop firin'
Gonna shoot ya - look out
We're gonna blow - gonna get ya good
