

# Rockstar For A Day

Bumblefoot

I just turned 19 for the 16th time  
Posing with bottles of the finest wine  
I'm only seen with people just like me  
So rich that we get everything for free  
Spouting politics from my limosine  
Because you care - About the product in my hair  
About the clothes I'm gonna wear  
To the event where we congratulate ourselves

I wanna be a rockstar for a day - I want my 15 minutes  
of fame  
But I've got face that's made for radio - And my body's  
a disgrace  
I wanna be a rockstar for a day - I wanna get botox in  
LA  
'Cause I've got a face that's made for radio - And a  
voice that's made for... I don't know  
But you'll love me anyway

So tell me tell me tell me - am i great?  
Will you tattoo my CD cover on your face?  
So do you wanna win a date with me?  
We can talk all night about me me me? me?  
Sitting by candlelight telling stories about by care  
Because you care - About the product in my hair  
About the clothes I'm gonna wear  
To the event where we congratulate ourselves

I wanna be a rockstar for a day - I want my 15 minutes  
of fame  
But I've got face that's made for radio - And I never  
could get laid  
So I wanna be a rockstar for a day - I'm gonna get a  
pornstar for a date  
But I've got a face that's made for radio - And a voice  
that's made for... I don't know  
But you'll love me anyway

All of my entourage can join my fanclub membership  
And get a year free for 1 friend & my autographed  
guitar pick  
As for the ugly rumors they're all started by my  
publicist  
And yes it's true - I was born on the moon and have  
3000 kids  
My contribution to humanity is saying I'm part of it  
And when I sneeze it's history - in a century you'll  
read about it  
Because you care - so let's congratulate ourselves.

I wanna be a rockstar for a day I want my 15 minutes of  
fame  
But I've got face that's made for radio - And my body's  
a disgrace  
So I wanna be a rockstar for a day - Got implants  
everywhere except my brain  
'Cause I've got a face that's made for radio - And a

voice that's made for... I don't know  
And my songs are kinda lame - Tomorrow you'll forget my  
name  
But you'll love me for today - But you'll love me  
anyway  
Yeah ya love me anyway
