

## Battle For Hoth

## Burden of a Day

Come blue dark skies please take to me  
Outside my window sill  
For I have wandered aimlessly  
The sky is gated  
I've lost the key  
I need the sound of your voice  
Remind me of my dreams  
My shadows playing tricks again  
Dancing on the walls  
If only I could believe tall tails  
The pixie dust would fall

The dust would fall

The dust would settle, settle (2x)

Settle, settle

You took the stairs  
And missed the fall (2x)

To play it safe or risk it all

You live your life in the darkroom  
Blank photos of your friends  
Unable to step outside  
Afraid the anvils going to fall  
Save yourself  
The pain of loss  
No broken bones  
But no twinkle in her eye

These sticks still burn  
They burn like home (2x)

This is forever and a day  
I feel like I will be okay  
This is forever but today  
I feel like I could be a kid again.

Raise your hands up to the sky  
The smile on your face  
This moment in time  
Feels like forever and a day

This could be so much more than it ever was

Would you please step up to the edge  
Close your eyes and just let go  
You said it couldn't be done  
I said its already been done  
Put your faith in me  
I promise you just one thing  
I'll never let you go

Your fear is in the past  
Just relax

Just relax  
I'll never let you go

Because we are the lost boys  
Forever in Neverland  
Would you be our leader, our leader  
And take me by the hand? (3x)
