

Remember

Burden of a Day

They chased Us to the end of the dock
Stay with Me We can outlast night
Just stay awake I know We can
I know We can make It out alive
Make It out alive.

We outlasted evenings, and I barely breathed
How couldn't I see? How couldn't I see?

Don't turn your eyes if You leave now
You won't remember me
You weren't meant to do this on your own.

No, I feel the water is calling
The wood under our bare feet cries
Every animal came to watch
The first and last to love die.

What a wretched man I am
Who will rescue Me from this body of death?

Don't turn your eyes if You leave now
You won't remember me
You weren't meant to do this on your own
Just stay close and I'll keep You from leaving
Just move slow and I'll keep You breathing.

They chased Us to, the end of the dock
Stay with Me We can outlast night
Just stay awake I know We can
I know We can make It out alive
Make It out alive.

Mother mercy the sea's swallowed my graceful
I have failed You, I've been too late.

Don't turn your eyes if You leave now
You won't remember Me.

Don't turn your eyes if you leave now
You won't remember Me
You weren't meant to do this on your own
Don't turn your eyes if You leave now
You won't remember Me
You weren't meant to do this on your own
Just stay close and I'll keep You from leaving
Just move slow and I'll keep You breathing.
