

## Seasons

## Burlap To Cashmere

Seasons come and go  
Fade until tomorrow  
Seasons come and go

And leave that smile away  
They say, leave that smile away  
You can come around but never stay

Everybody look  
Everybody seem  
Faded into a bad, bad dream  
Wheels don't work, car won't drive  
Nowhere to go, nowhere to hide  
One naked man  
One naked scheme  
Faded into a bad, bad dream  
Everybody look  
Everybody glide  
Glide along and wave goodbye

Seasons come and go  
Fade until tomorrow  
Seasons come and go  
Through the hills and valleys  
Someone calls my name  
Opens up the sky  
Takes me off my train

Everybody look  
Everybody seem  
Faded into a bad, bad dream  
Wheels don't work, car won't drive  
Nowhere to go, nowhere to hide  
One naked man  
One naked scheme

Faded into a bad, bad dream  
Everybody look  
Everybody glide  
Glide along and wave goodbye

Everybody look  
Everybody seem  
Faded into a bad, bad dream

Everybody look  
Everybody seem  
Faded into a bad, bad dream
