

Shine

Burn Halo

Don't think that you know, but I'm ready
Don't think that it shows, but I'm ready now
Ready now

Can't hide all the shots that I've taken
Can't cover the fact that I'm breakin' down
Breakin' down
Will I recover?

I know how it feels

I don't wanna waste another day
Sun will burn, the darkness fade
And I can feel you shine

You found me my heart had been twisting
You found me, but I was out getting high
Getting high

Awake from the years I was sleeping
Awake and I know that I wasted time
Wasted time
Will I recover?

I know how it feels

I don't wanna waste another day
Sun will burn, the darkness fade
And I can feel you shine

Here I come to find it out
Here I come without a doubt

I know how it feels

I don't wanna waste another day
Sun will burn, the darkness fade
And I can feel you shine
