

# So Addicted

Burn Halo

I am so addicted.  
I am so addicted.

Another scar that'll never heal.  
Another car crash I can't feel.  
I keep going down, I can't turn around  
Thinking maybe that I'm too far gone.  
Take a breath take another step back.  
Suffocate as it all goes black.  
Dark rooms don't need your light.  
Giving in, giving up the fight.

Never get away.  
Never get away.  
Never get away  
Never get away

Sit back, relapse  
Never see that I'm so addicted  
Stand up, fall down  
I'm gonna be what you all predicted  
All these days  
Gone to waste and I missed it.  
I'm so addicted.  
I'm so addicted.

I don't think I'll ever get this right.  
Living life on the other side.  
I walk alone now.  
I've been beat down.  
Can't you see I'm just another lost cause.  
Take a pill, take another quick hit.  
One to remember.  
One to forget.  
Such a blur, I'm just too damn high.  
Giving in, giving up the fight.

Never get away  
Never get away  
Never get away  
Never get away

Sit back, relapse  
Never see that I'm so addicted  
Stand up, fall down  
I'm gonna be what you all predicted  
All these days  
Gone to waste and I missed it.  
I'm so addicted.  
I'm so addicted.

I'm on a roll now.  
I never come down  
There's nothing left now.  
Just the shadow of the me you used to know.

Sit back, relapse

Never see that I'm so addicted  
Stand up, fall down  
I'm gonna be what you all predicted  
All these days  
Gone to waste and I missed it.  
(Never get away, never get away)  
I'm so addicted  
(Never get away, never get away)  
I'm so addicted.  
I'm so addicted.  
I'm so addicted.
