

## Flesh And Bone

## Burning Brides

Has the terrible danger that surrounds us  
Become like a drug?  
Are we more like strangers in a glass house  
We're rich with the blood

How can you leave the black out?  
You're only flesh and bone  
Flesh and bone

When a blanket of winter is all around us  
We have to stay warm  
When there's no one there you can count on  
You have to transform

How can you leave the black out?

How can you leave the black out?  
You're only flesh and bone  
Flesh and bone  
Flesh and bone  
Flesh and bone

How can you leave the black out?  
You're only flesh and bone  
Flesh and bone  
Flesh and bone  
Flesh and bone
