Flesh And Bone

Burning Brides

Has the terrible danger that surrounds us Become like a drug? Are we more like strangers in a glass house We're rich with the blood

How can you leave the black out? You're only flesh and bone Flesh and bone

When a blanket of winter is all around us We have to stay warm When there's no one there you can count on You have to transform

How can you leave the black out?

How can you leave the black out? You're only flesh and bone Flesh and bone Flesh and bone Flesh and bone

How can you leave the black out? You're only flesh and bone Flesh and bone Flesh and bone Flesh and bone
