

Stabbed In The Back Of The Heart

Burning Brides

Hey you know something, you fucked me over
And I just got a couple words to say to you, and this is one of
them

(Hoo, Hahahaha)

You got the tounge of a snake
You fought your way to my plate
And now you hang with the liars
while I get higher and higher
Been away for a long long time now
Once you're back you will see what I've become

You're public enemy one
And you were nothing but fun
I caught you down on the queen
and you know just what I mean
Been all over the god damn world now
once you're back you will see what I've become

Stabbed in the back of the heart
Oh yeah

You're on your way to the ground X5
