

Vampire Waltz

Burning Brides

we locked at the parking lot
bruised at the bottom of a well
and I'll see you in heaven babe
or else I will see you in hell

you can claw and kick
but it ain't really gonna do you any bit of good
cause the last time I turned away
oh how I wished that you would

well the only thing left in your life my love
is down at the end of the bar
relax and we'll go for a ride my love

awake in the stars

you faint at the sight of blood
at least that's what I used to think
but I know you much better now
and know that you just like to drink

you can climb your way
out of every fucking hole that you have ever dug
but you can't climb out of your grave
once all the damage is done

well the only thing left in your life my love
is down at the end of the bar
relax and we'll go for a ride my love

awake in the stars

(hold on lifeless boats
everyone's a swimmer
play along the safety lines
climb aboard with the sinners)

it's all a waste of time

it's all up in your mind
