

# Black Disciples

## Burning Spear

No, black disciples will never run away  
No, they will no frustrate  
They come to stay

Is a lucky thing I never get  
Swell headed  
Is a lucky thing I never get  
Swell headed

And started to run, run, run  
I will never run away  
And started to run, run, run  
I will never run away

Do you hear?  
I never run away  
I never run, never run  
Never run away

Deh a dem they say to I  
Deh who feel so nice, so nice  
Deh a dem they fight against I  
You should see dem rejoice and tell I to

Run, run, run  
I will never run away  
Run, run, run  
I will never run away

Do you hear?  
I never run away  
No I would never  
I never run, never run  
Never run away  
I and I will never run away!

My black brother call me, call me  
And he reason with me  
Everything he tells me  
Oh yes it's true

That's why I will never run, run, run  
I will never run away  
Run, run, run  
I will never run away

Do you hear?  
I never run away, no  
I never run, never run  
Never run away

I will never, will never  
Will never, could never  
I and I will never run away!  
I and I will never run away!  
No I will never run away  
I come to stay

No I will never run away
