

It All Comes Together

Burton Cummings

I know you've been downhearted
You've been hurtin' on the inside
Lookin' like that sun wasn't shinin' no more
Pick yourself up, smile some
And try to see the bright side
All comes together as you grow

Yes, you know that it all comes together
It all comes together
All comes together as you grow
You cannot trade your wisdom
For the youth that you've been missing
'Cause it will all come together as you grow

I know that you've been lonely
You could have used someone to talk to
But that's just one chapter
And, honey, your story ain't through

You're richer with your treasure
With every year that's passing
And every time you think about it
Honey, it'll put you through

Yes, you know that it all comes together
It all comes together
All comes together as you grow
You cannot trade your wisdom
For the youth that you've been missing
'Cause it will all come together as you grow
