

Our Gift

Bury Tomorrow

Take my hand
We are bound
You never have to feel alone
For we are found

Rise up all chosen
This is your moment to shine
'Cause if you feel how I feel
then there's nothing to fear 'cause this is your life

I grant you eternity sat at my side
All I ask is for your loyalty until the end of time

You knew you could prey on my heart
You knew you could sell me from the start
Now I know that this could be the end of me
Falling for the same game that you sold to him
I see this for what it is, we need it to believe in
You've preyed upon us for the final time

Let go, lose control,
Forget the ones you used to know
We are your family, this is your home now
Don't fucking forget the mess we found you in
A gift turned a curse
A pact of blood until the end of the earth

You knew you could prey on my heart
You knew you could sell me from the start
Now I know that this could be the end of me
Falling for the same game that you sold to him
I see this for what it is, we need it to believe in
You've preyed upon us for the final time

Now I know that this could be the end of me
Falling for the same game that you sold to him
I see this for what it is, we need it to believe in
You've preyed upon us for the final time
