

Just because you turned your back  
Just because you turned away  
It doesn't make me any better  
It doesn't make you any less

You think you're better?  
My ideals are still the same  
You're the one who fucking sold out  
You're the only one to blame

Just because you turned your back  
It doesn't make me any less  
Let's go

Bring it back  
Just because you turned your back

I'll never turn away, turn away from this fight  
I'll never turn my back on this fight  
I'll never turn away, turn away from this fight  
I'll never ever turn my back on this fight
