

## Alien Chords

Bush

Well the satellite comes and goes  
we give each other all we know  
in silence we still talk  
by the light of the stereo waltz  
and you will rain down  
in your cinematic love truck  
i want to hold you like nothing's going stop us

She come to take me away  
it's all that i needed  
i don't breathe another lover

Flicker on a TV screen  
everything's more than it seems  
the mighty backward fall  
stare at the lights on the wall  
i swear to this  
she felt like velvet  
second blond child she ment it

She comes to take me away  
its all that i needed  
i don't breathe another lover

I'm an alien  
you're an alien  
it's a beautiful rain  
beautiful rain  
beautiful rain
