

# Be Still My Love

Bush

It's a killer inside  
As I'm watching you slide  
Out my hand  
You're slipping away  
As I'm watching you fade  
Please hold on  
If I'm losing you now  
I won't give till I'm out  
You're my world  
I'll shoulder your pain  
Weather violent waves as I can

Be still my love  
They can never take us  
Be still my love  
Be still, be still, my love

Now a stranger between  
I can't get to you please  
Don't fade off  
Can't stand to lose you  
I don't know what to do  
For your bleeding  
We're up all night, Sleep all day  
We won't care, whatever you say  
Our love, is ocean sized

Be still my love  
They can never take us  
Be still my love  
Be still, be still, my love

I won't do no harm  
And I won't do you wrong  
I want you to come  
Cause you've been gone to long  
Try to revive  
And bring you back round  
No you are gone  
Deep under ground  
And nothing could ever be the same again  
Ohhh I miss you my valentine  
Lately, so heavy without you

Be still my love  
They can never take us  
Be still my love  
Be still, be still, my love  
Be still my love  
Be still my love  
Be still, be still, my love  
Be still, be still, my love
