

# Bodies In Motion

Bush

I spread my wings  
I tried to fly  
I believe in myself  
When there was nothing right  
And I  
I know I am dust  
I know we are sand  
But we give of ourselves  
As best as we can  
Why does it always rain  
On Mondays  
For me

Bodies in motion  
Bodies at rest  
Got to get inside you  
Got to get lost  
Jump into the water  
Jump into your life  
Diving in deep  
To your ever changing light

I been lost  
And I been found  
I made my bed  
In this sea of sound  
And we have been so high  
Been so low  
Are you the one  
That I need to know  
Why does it always rain  
On Mondays  
For me

Bodies in motion  
Bodies at rest  
Got to get inside you  
Got to get lost  
Jump into the water  
Jump into your life  
Diving in deep  
To your ever changing light  
Into the deep of your ever changing light  
Of your ever changing never changing light

Into your light  
Into your light

We found love  
And we found pain  
And I know that you're sinking  
Cause I feel the same  
Why does it always rain  
On Mondays  
For me  
(for me) (for me)

Bodies in motion  
Bodies at rest  
Got to get inside you  
Got to get lost  
Jump into the water  
Jump into your life  
Diving in deep  
To your ever changing light

Bodies in motion  
Bodies at rest  
Got to get inside you  
Got to get lost  
Jump into the water  
Jump into your life  
Diving in deep  
To your ever changing light
