

Body

Bush

Hush child, lay your sweet lips on me
This greed
Bigger than you and me
Will you come again
Body

Tongue tied and a visceral third degree
Feel warm, center of gravity
Wash us all away
Body never lies

Will you come again
Will we stay friends
Oh you paralyze, oh you paralyze

There are times when i wish
That i was you
Thick skinned
Cities you drive me through
Better than me, you're a woman
Seven days and my system is free again
we rise, lose it on oblivion
Falling away, I'm sorry for the way

Your child is on fire
Your child id on fire

Will you come again
Will we stay friends
Oh you paralyze, oh you paralyze

Will you come again
Will we stay friends
Will you come again
Will we stay, will stay, will stay

Lick these my ruby lips
Drop your protein pills
Better just to lose yourself
We kiss, we kiss, we kiss

Pretty words could never say
Pretty words could never say
Pretty words could never say
Pretty words could never say

Will you come again
Will we stay friends
Will you come again
Will we stay friends
Will you come again
Will we stay friends, will stay, will stay
Will stay
