

Head Of Ghosts

Bush

I stand around at American weddings
I stand around for family
At my best when I'm terrorist inside
at my best when it's all me
I was there when they took all the people
I was alone in a mental ravine
You breathe life when you break the walls down
You breathe life when you set me free

Where is my head where are my bones
Why are my days so far from home
Ghostman - where is my head - where are my bones
Can you save me from myself

Free-thinking renegade social
Mr. Moon Man now
Out the slipstream of my possibilities
got the boat so we don't drown
These are the days that I'm split down the middle
No words to calm me down
Be sure that what you dream of
won't come to hunt you out

Where is my head where are my bones
Why are my days so far from home Ghostman

Where is my head where are my bones
How come we get so lost Ghostman

Ghostman - where is my head - where are my bones
Can you save me from myself
Can you save me from myself

I stand around at American weddings
I stand around for family
At my best when I'm terrorist inside
at my best when it's all me

How come we get so lost

Where is my head - where are my bones
Can you save me from myself
Can you save me from myself

Where is my head - where are my bones
Where is my head - where are my bones
