

# Hurricane

Bush

Skies ripped open by the sun  
Daylight comes but not soon enough  
Speed down your track in search of you  
Strapped to the back of what we do

Anaesthetize these troubled nerves  
Over to you to make it work

Agents of change set headfires  
I'd rather starve than fake alive  
Lost to the cities of the night  
Lost in the world to make it right

Heartbreak  
Heartbreaking  
Novocaine won't help the pain  
I'm out of control  
I'm a hurricane  
Head and heart are broken down  
Out of control, I'm in a hurricane  
Hurricane

Win some ground but I lose you  
It's never explained how to make it through  
No rope, no cash, no serpentine  
All love buried on a bonfire

Heartbreak  
Heartbreaking  
Novocaine won't help the pain  
I'm out of control  
I'm a hurricane  
Head and heart are broken down  
Out of control, I'm in a hurricane  
Hurricane

Good to see you follow  
Good to see you come again

Heartbreak  
Heartbreaking  
Novocaine won't help the pain  
I'm out of control  
I'm a hurricane  
Head and heart are broken down  
Out of control, I'm in a hurricane
