

Inflatable

Bush

Let it slide overhead
When I believe in you my soul can rest
But our love, it's really love
Can never fail, but fail it does
When we shine like the sun
You seem the only one, my only friend

So pretty in white
Pretty when you're faithful
So pretty in white
Pretty when you're faithful
When you're faithful

I resigned from myself
Took a break was someone else
It's like I've come undone
I've only just become inflatable for you

So pretty in white
Pretty when you're faithful
So pretty in white
Pretty when you're faithful
So pretty in white
Pretty when you're faithful
When you're faithful

I don't mind most of the time
But you push me so far inside

So pretty in white
Pretty when you're faithful
So pretty in white
Pretty when you're faithful
So pretty in white
Pretty when you're faithful
So pretty in white
Pretty when you're faithful
When you're faithful
When you're faithful
