

Old

Bush

Hell bent useless void
Feed your favorite paranoid
Wash these hands for a change
One step closer by the way

Spin around
All the way
Nothing left
Give it all away
Give it all away

Sell me up the jacket straits eat the worlds
Left on my plate summer's shot and so I'm smoked all day
Doctor ain't it good to live

Spin around
All the way
Nothing left
Give it all away
Give it all away
Give it all away

Everyday give yourself away
Coming undone in that usual way
Usual way

She's been around
Our way
Not that well
Give it all away
Give it all away
Give it all away
All my way
