

Ravens

Bush

All engines must fail sometimes
People must fail sometimes
Machines will break on somedays
Everyone breaks up somedays

Disappear like ravens
Wishin' I could save us

The dark blows into the darkest night (ravens)
For the dark wants to know how to love you right (ravens)
(Ravens, ravens)

Lions get scared sometimes
We all get scared sometimes
Don't understand you right now
I don't even know you right now

Disappear like ravens
Free of mind and dangerous

They attack once into the darkest night (ravens)
For the dark wants to know how to love you right (ravens)
(Ravens, ravens, ravens, ravens)

Kisses will end one day
It's a sad day
When the kisses end

We disappear like ravens
Wishin' I could save us

The dark winds into the darkest night (ravens)
The dark wants to know how to love you right (ravens)
(Ravens, ravens, ravens, ravens)

The dark winds into the darkest night (ravens)
The dark wants to know how to love you right (ravens)
The dark wants to know how to love you right (ravens)
The dark wants to know how to love you right (ravens)
