

# The Afterlife

Bush

She got the antidote she knows the other way  
She really understands I don't what the hell to say  
I'm on the other side I'm on the other side  
I'm in exile to left of a landslide

I got no broken wing  
I got the moonshine  
I let my enemies slide for the meantime  
Why don't you let it go  
Why don't you let it go  
Why don't you let it go  
Let it go let it go

And I give myself away  
When there's nothing left to say  
I surrender myself to the wind  
Into the afterlife (Into the afterlife)  
with you and me  
into the afterlife (Into the afterlife)  
with you and me

The worries on your face  
The stars came out to play  
I try to tell myself  
I won't mess up again  
I try to fix it good  
I try to patch it up  
I got a manual that tells us how we have to love  
Forgot your neighbor forgot your love  
Forgot the strength cause you can never get enough  
Why don't you let it go  
Why don't you let it go  
Why don't you let it go  
Let it go let it go

And I give myself away  
When there's nothing left to say  
I surrender myself to the wind  
Love is sinking fast within

Into the afterlife (Into the afterlife)  
With you and me  
Into the afterlife (Into the afterlife)  
with you and me  
You and me

Come inside, come over here  
I remember you through all the years  
Don't try to run us down  
When the world is at your feet  
Don't let the baby bite  
(Bite bite)

She got the antidote  
She knows the other way  
She really under understands  
I don't what the hell to say

I'm on the other side  
I'm on the other side  
I'm in exile to left of a landslide

And I give myself away  
When there's nothing left to say  
I surrender myself to the wind  
Love is sinking fast within

Into the afterlife (Into the afterlife)  
With you and me  
Into the afterlife (Into the afterlife)  
with you and me

Into the afterlife (Into the afterlife)  
With you and me

Why don't you let it go  
Why don't you let it go  
With you and me  
Into the afterlife  
Why don't you let it go  
Why don't you let it go  
Why don't you let it go  
Let it go let it go
