

# Against All Odds

Busta Rhymes

Aiyyo, balls your pencils  
As hollow tips get in you  
Bots cutting to slice your face you  
Rhymes is natural  
Hold two lives and four wives  
Up in the crack capsule  
Flipmode cruddy styles has been past you  
Rush pass  
You couldn't touch cash  
If it was under your nose  
Like a mustache  
Nigga  
What ass  
Show your whole cheek  
Slugs with no heat  
Diamonds that don't break  
You thugs is so sweet

I float so much I get seasick  
Flipmode is the Squad who I beez with  
Who I get plucks with  
And push German V's with  
Rampage I'm psychic I can see shit  
To the next millenium  
You not gon be shit  
Scratch your name off the list  
Cut your wrist  
You know the issue  
I'm official  
When you die none of your niggas is really gon miss you

FLIPMODE SQUAD  
Here to drop bombs  
AGAINST ALL ODDS  
Still remain gods  
GRIP YOUR ARM  
We always come hard  
THE WORLD IS OURS  
Call a National Guard

Here we go  
Any bitch that rhyme wanna flex she ass  
I'm stomping all things like I'm plexi-glass  
Niggas make way like when they hear sirens  
Treat you like park and too close to fire hydrants  
All up in the board  
Kicking back long islands  
Get your wig split first solid defiance  
Rah Earth and sun in this Imperial alliance  
You do the science

I'm getting money shitting, turn intruders into vixens  
Fall off beeper uh-uh niggas stay getting  
Dirty nigga for life  
That's how Spliff's living  
Throwing niggas in caskets  
Tired of a yellow ribbons

I buck my duck if you touch my one  
Rather Jamaican than belly boy make you people for fun  
Fat Man's Son, street educated  
The colonel of ghetto jurors, still thug related

FLIPMODE SQUAD  
Here to drop bombs  
AGAINST ALL ODDS  
Still remain gods  
GRIP YOUR ARM  
We always come hard  
THE WORLD IS OURS  
Call a National Guard

We enemies of three strike felony laws  
Gorilla dicking K-Y jelly for whores  
Lapdances trap grands without laws  
My baby moms, three eighty for your arms  
That bust with loud force  
The ghetto with us  
That bang Makaveli in trucks  
That whatever the fuck to give a cheddar in chunks  
Who gazey chase  
Fake thugs with lazy aid  
Track marks  
Rap stars  
And a rain of aids

Yo, what you want from us  
Now visualize more of us  
Stay toting under my given flavor from Nauticas  
Destroy every arch rival or any challenger  
Make you remember this day  
Nigga mark it on your calendar  
I'm showing you something  
You ain't saying nothing  
My niggas make noise  
Like a bunch of volcanoes erupting  
None of y'all niggas really wanna war  
The type of nigga to crash my plane in your building  
In the name of the law

FLIPMODE SQUAD  
Here to drop bombs  
AGAINST ALL ODDS  
Still remain gods  
GRIP YOUR ARM  
We always come hard  
THE WORLD IS OURS  
Call a National Guard
