

Race to Mars

Busted

The race to Mars
The race to Mars

Dead from the start, the world is falling apart
But now it's okay
(The race to Mars)
The new Tony Stark is busy building the ark
You know it's okay
(The race to Mars)

It's times that we're living
It's times that we're living in
The stars are the limit
It's time to begin again
Now everybody, come on
Now everybody
Ooh, why can't we just get along?

When the fire starts
We gotta hold on
We could chase the stars
As the sun's gone
At the end of the day
After it's all gone
It's the race to Mars, race to Mars

Into the dark, a journey we will embark
Come on, it's okay
(The race to Mars)
You got a part to play, so you better start
To make it okay
(Electric cars)

It's times that we're living
It's times that we're living in
The stars are the limit
It's time to begin again
Now everybody, come on
Now everybody
Ooh, why can't we just get along?

When the fire starts
We gotta hold on
We could chase the stars
As the sun's gone
At the end of the day
After it's all gone
It's the race to Mars, the race to Mars

One more step for human kind
Is Burning Man the future?
One more chance to turn the tide
It's the race to Mars

When the fire starts
We gotta hold on
We could chase the stars

As the sun's gone
At the end of the day
After it's all gone
It's the race to Mars, the race to Mars

Everybody, come on
Now everybody
Ooh, why can't we just get along?
Everybody, come on
Now everybody
Find a place where we belong
A place that we belong, we belong
Belong, belong
Belong, belong
Belong, belong
Belong, belong

The race to Mars
The race to Mars
