

Without It

Busted

If you're giving up,
Then maybe you should say so
If we're not enough
Then maybe you should say so
I try to love you the best way that I knew how
But if I have been just a fool who's let you down,
What now

But if you don't give a damn about it,
Tell me that you can't get your head around it,
Maybe we'd both be better off, both be better off without it,
I'm tryna tell I couldn't try anymore to say it,
You're about to lose in this game you're playing
Baby we'd both be better off, both be better off without it

Cause if you don't care,
We are going nowhere

When we were in love,
I could see your halo,
Should love be this tough,
Every single day though,

Cause I tried to love you the best way that I knew how,
But if I have been just a fool who has let you down,
What now

But if you don't give a damn about it,
Tell me that you can't get your head around it,
Maybe we'd both be better off, both be better off without it,
I'm tryna tell I couldn't try anymore to say it,
You're about to lose in this game you're playing
But we'd both be better off, both be better off without it

Cause if you don't care,
We are going nowhere
Cause if you don't care,
We are going nowhere

Well I tried to love you the best way that I knew how,
But if I have been just a fool who has let you down,
What now

But if you don't give a damn about it,
Tell me that you can't get your head around it,
Maybe we'd both be better off, both be better off without it,
I'm tryna tell I couldn't try anymore to say it,
You're about to lose in this game you're playing
Baby we'll both be better off, both be better off without it

Maybe we'd both be better off, both be better off with out it

Cause if you don't care,
We are going nowhere

Don't care,
Nowhere,

Don't care,
Nowhere
