

Without You

Busted

The way you always made me look at you
With all the simple things you said
The way so many things surrounded you
And all the tears it seemed to make
And now I'm falling
There's nothing left to say
And I can't break free
Out from in me there
And I can't breathe without you
I can't breathe without you
I can't breathe without you
Without you, without you, without you
The way I never thought I'd leave this place
The way you made it seem so real
Cause you have faith and you had empathy
And all I needed was this
And now we're falling
Got nothing left to say?
And I can't break free
Out from in me there
And I can't breathe without you
I can't breathe without you
I can't breathe without you
Without you, without you, without you
How can I let you leave this way?
Without you I'm not at all
And I see things now in these memories
Just to see you...again
