

# Into The Black

Butch Walker

I walk around in circles  
Just like a dog with vertigo  
As I go insane

The sun shines all around me  
On the world and everybody  
With somebody while I'm in the rain

'Cause it's you that can break me  
And keep me on my back  
'Cause it's you that can save me  
From falling into the black

The streetlights flash in tempo  
With my heart that's poundin' although I  
Haven't had a heart for days

If I could just be honest  
Get my feelings off my chest and on your mind  
I could find the way

'Cause it's you that can break me  
And keep me on my back  
'Cause it's you that can save me  
From falling into the black...black

(The black...fallin' into the black)

Hold me and tell me that everything's gonna be all right  
And I'll tell you that everything's gonna be all right

'Cause it's you that can break me  
And keep me on my back  
'Cause it's you that can save me  
From falling into the black

'Cause it's you that can break me  
And keep me on my back  
'Cause it's you that can save me  
From falling into the black...black

(Black...fallin' into the black)
