Blonde Girls All Look the Same

Butcher Babies

She's such a slut
She'll get more round to the face
Don't think that you can take my place
I'd consider killing
I'd consider killing you, if I thought you were alive
On Fanuel Street
So you see, yeah I wanna kill you
So you see, yeah I'm gonna kill
You're such a cunt, you took a fucking wrong turn
There'll be a lesson to learn

Lie again, I dare you to
Open your mouth and tell the truth
What's gonna be your famous last words
I'll give you that but, you don't fucking deserve Me Me
You don't deserve me

Show off you little bitch
It's just a circle of friends
Show off you little bitch
As I watch your pedestal burn

All dressed in white you turned it red
Piece by piece your clothes hit the floor
You make me sick
Did she like it rough? Did you fill it in her mouth?
From behind did her fucking five head shine?
Take it. Take it all you fucking slut

Lie again, I dare you to
Open up your mouth and tell the truth
What's gunna be your famous last words
I'll give you that but, you don't fucking deserve Me Me Me

You're such a mother fucker, everybody's gonna learn
Your god dam piece of shit cover is blown
You're such a mother fucker, everybody's gonna learn
Your god damn piece of shit cover is blown
