

5678!

Butterfly Boucher

You wanna know how love is made
You wanna see the world change
Well gather all your people 'round
And listen for the countdown

(Five, six, seven, eight)

It's a science
And the beat is our alliance
But once you have it
There is method to the madness

The sky is falling, this is true
Been falling since I fell for you
The feeling of deja vu
And no one does it like you do

It's a science
And the beat is our alliance
But once you have it
There is method to the madness

(Five, six, seven, eight)

Oh, it's a chemical attraction
Can you feel it?
It's the sound of satisfaction

(So you think you can dance, do you?
So you think you can dance, do you?
Honey, everybody thinks they can dance
Watch me dance)

And no one does it like you do

(Five, six, seven, eight)

It's a science
And the beat is our alliance
But once you have it
There is method to the madness

(Five, six, seven, eight)

Oh, it's a chemical attraction
Can you feel it?
It's the sound of satisfaction

(Watch me dance)
